Hello,

I am a graduate student at the University of Michigan and have been using your API to collect measurements of political bias. I recently tried to make a request and received a 404. Do you have any idea as to why this could be happening? I have a project due in a few weeks and am reliant on this data.

Thanks so much for your help; I look forward to hearing from you.

Best,

Brittany Evans

Hi Brittany, I'll try to get it back up tomorrow if I find time. It was having issues with accuracy which I hope to resolve.

Thanks so much!  I appreciate it (I was just worried it was going to be gone forever)

Best,

Brittany Evans

Hello again,

I know, it's me again.

The school project that I was using your API for is due tomorrow and I just wanted to check in one last time.

Thanks so much,

Brittany Evans

Hey Brittany, despite my best efforts I won't be able to get it running due to some serious technical issues. Sorry about that I really wanted to get it working for you. I'll try to have it up in the next month or so if you're still interested.

No worries, I understand. Would you happen to know of a similar API or other similar resource off of the top of your head?

Thanks so much,

Brittany Evans
